CSE 453

Hardware/Software Integrated

System Design

Projects

After using reviewing the projects in the Project Overviews (below), use the preference form to indicate your top three choices **BEFORE LECTURE ON MONDAY, JANUARY 30**. *It is important to note that you are simply submitting your preferences. Everyone's preferences will be used as a starting point to form teams in CSE 453. This is* **NOT** *your final team assignment. We hope to finalize the teams during the first week of class. This is merely a starting point. To submit your preferences, you will need your UBIT username and a course password. The password can be obtained by clicking* here.
